Baldrige Award Recipient in Louisiana

DynMcDermott Petroleum Operations Company, service, 2005

From 1993 to 2014, DynMcDermott Petroleum Operations Company (now DM Petroleum Operations Company) operated and maintained the U.S. Strategic Petroleum Reserve (SPR), a cache of up to 700 million barrels of crude oil. The U.S. Department of Energy's (DOE) oil reserve was designed as "energy insurance" against disruptions to the availability of crude oil. With a budget for 2006 of \$113 million and just over 500 employees in Louisiana, Texas, and Mississippi, DM worked exclusively for the DOE. When Hurricane Katrina caused DM to relocate operations from New Orleans to Beaumont, Texas, the SPR began delivering oil within 5 days to refineries in the Gulf Coast region, which normally get oil from the Gulf of Mexico.

Highlights

- Longest-running management and operations contractor in the SPR's 30-year history
- Improvement in drawdown readiness from 95% to 99% or better over 3 years
- Improvement in overall customer satisfaction from 67% to 85% (on a 90% scale) over 6 years
